**BEVERLY HILLS, Calif., September 29, 2016** – [NRPR Group LLC](#) (NRPR), Beverly Hills' premier public relations, social media marketing and strategic positioning agency founded by seasoned PR veteran Nicole Rodrigues, is thrilled to announce its biggest quarter in company history with major additions to its rapidly growing client roster.

"It's such a great feeling to see how much our agency has grown since we hit our two year mark," said Rodrigues. "Adding so many amazing names, especially a digital entertainment pioneer like MobiTV, which is a company I hold near and dear to my heart, since I was originally hired over ten years ago to be their in-house PR Manager. It's amazing how things are coming full circle and we're growing our family of clients while not only reaching our goals, but surpassing them with flying colors. The team can't wait to keep going strong with this momentum and we look forward to growing even more before end of year."

"We're all about good energy here at NRPR Group, and we love working with the best of the best. Our new clients are just that," said Rodrigues. "Each brings so much passion, creativity and dedication to the work they do in their industries. We're excited to be the ones that get to tell their stories."

In addition to celebrating its massive growth, NRPR Group is also excited to announce it was chosen as one of five Honorable Mention Award recipients by PR Daily for its exceptional work in executive visibility with client Patch of Land. NRPR Group was chosen for this honor for its ability to not only help the company get recognized for its hard work and innovation within the real estate crowdfunding industry, but by successfully focusing on promoting Patch of Land's contributions back to the community and its strong team of executives who had powerful stories to tell as well.

"We're storytellers and creative thinkers, and to be recognized by PR Daily for our work helping Patch of Land's executives earn the visibility they deserve really is the cherry on top of an amazing few months." said Rodrigues. "In one year, we got them more than 400 press hits, and more than 30% of those were thought leadership pieces from Patch of Land's executive bench. They're some of the best and brightest in their industry, so to get them that level of exposure after starting relatively unknown, it shows that we know what we're doing, and that the way we do things gets results."
